

DRC 600

LONG HAUL CLOSED-SHOULDER DRIVE

Introducing the DRC 600 – the ultimate long haul/drive tire that offers unbeatable performance and reliability. With an optimized pattern block design, this tire provides exceptional damage resistance for the tread, ensuring that it can handle even the toughest road conditions. The unique traction pattern and deep grooves work together to enhance driving performance while also prolonging the service life of the tire. The continuous shoulder design improves tread stability, prevents irregular wear and reduces rolling resistance, which means you can enjoy a smoother and more comfortable ride while obtaining greater fuel savings. Additionally, the shoulder lugs help reduce tread heat, which helps prolong the life of the tread, saving you money in the long run.

TREAD COMPOUND: KTM6

KTM6 IS A TREAD COMPOUND THAT PROVIDES WELL-BALANCED PERFORMANCE WITH AN EMPHASIS ON LOW ROLLING RESISTANCE FOR EXCELLENT FUEL ECONOMY.

OPTIMIZED TREAD PATTERN

The optimized pattern block design improves tread damage resistance.

CONTINUOUS SHOULDER DESIGN

A continuous shoulder design improves tread stability, prevents irregular wear, and reduces rolling resistance.

DEEP TRACTION GROOVES

Deep grooves in the traction pattern ensure better driving performance and prolong the life of the tire.

ANTI-HEAT SHOULDER LUGS

These shoulder lugs reduce heat produced by road contact and prolong the life of the tread.
